EDUCATION

Bachelor of Computer Science - 4th year, Expected Graduation 2025*University of British Columbia, Vancouver, BC.**Sep 2022 – present***Courses Completed:** Software Construction(Java), Data Structures and Algorithms(C++), Intro to Computer System(C), Relational Database(PHP, SQL), Matrix Algebra**Master of Laws** - *University of Southern California, Los Angeles, CA**May 2020***Bachelor of Laws** - *Shanghai University, Shanghai, China**May 2019*

TECHNICAL SKILLS

C++, TypeScript, PHP, SQL, HTML, CSS, Node.js, React, Next.js, REST APIs, Oracle, Git

PROJECTS

AI Powered Mood Diary - [Next.js](#), [Tailwind CSS](#), [TypeScript](#), [Supabase](#) *Sept - Nov 2023 expected*

- Collaborate on the design and launch of a mental well-being web app, harnessing Next.js for both front-end and back-end, complemented by Tailwind CSS, React, and Supabase.
- The mood diary seamlessly integrates ChatGPT AI for personalized content and intuitive mood analytics.

Portfolio Website - [Next.js](#), [Tailwind CSS](#), [TypeScript](#)*Nov 2023*

- implemented the latest Next.js features, including its App Router and Server Actions, resulting in a portfolio website that boasts a responsive, modern UI with seamless light and dark mode capabilities.
- crafted a user-centric interface that delivers an exceptionally intuitive and visually striking experience across all devices.

Calorie Calculator - [Java](#), [OOP](#), [JSON](#), [Test-driven Development](#), [Swing](#)*April 2023*

- Design a calorie tracker to help users track and manage their daily food intake and monitor calorie consumption. Utilize various programming concepts such as OOP, event logging and graphical user interface design.
- Implemented a rigorous Test-Driven Development approach, crafting comprehensive JUnit tests for each method across all classes, which resulted in a robust, error-free application and ensured reliability and accuracy in calorie tracking.

WORKING EXPERIENCE

Bishining Law Office, SH, China - *Intellectual Property Legal Assistant**June 2021 –July 2022*

- Undertook in-depth research on copyright infringement issues, particularly in the context of web crawlers and emerging technologies, contributing to the development of informed legal strategies.
